

The Town of Mattawa

WATER SERVICE FREEZE UP PREVENTION

Reminder: In order to help ensure your continuous supply of drinking water, the Town of Mattawa recommends that residents who have historically experienced service water line freeze ups leave a cold water tap running in a steady stream (about the width of a pencil) until the risk of freezing water lines has passed. If you are unsure if you should run your water, or have any questions or concerns please feel free to contact us at (705) 744-5611 ext. 207.

Please be advised that the Town of Mattawa assumes no responsibility for damages caused as a result of the running water.
