THE CORPORATION TOWN OF MATTAWA

COMMITTEE: PLANNING & DEVELOPMENT

CHAIRPERSON: COUNCILLOR G. THIBERT

DEPT. HEAD: WAYNE P. BELTER

TITLE: AMEND ZONING BY-LAW 85-23

08-05 Draft By-Law Item Policy Recommendation

Mayor D. Backer and Members of Council:

Council at the January 28, 2008 regular meeting of Council withdrew Page 20 of the agenda which was recommending an amendment to the Zoning By-Law which would permit an increase in the size of accessory buildings on residential lots.

Council adopted Page 181 of Resolution Number 07-57 at their regular meeting of December 10, 2007, which stated:

“That Council authorizes the Planning Department to proceed with the public consultation process to revise the Zoning By-Law Accessory Building size requirements with the intention of recommending to Council a Zoning By-Law amendment to permit Accessory Buildings of up to 600 square feet.”

A public meeting was scheduled for January 14, 2008 here in the Council Chambers and a number of Councillors were in attendance to hear public presentations.

Mr. J.M. Belanger, Mr. T. Mick, and Mr. B. Huard were in attendance and presented various positions on the basic theme that the 602 sq. ft. amendment proposed for accessory buildings was still too small for an accessory building. A 24' x 30' (720 sq. ft.) was the minimum size the presenters proposed as acceptable and they would prefer even larger.

The Planning Committee has further reviewed the Accessory Building issue and after discussing the subject with numerous people including members of Council it is the concensus that the maximum size for accessory buildings should be increased to 780 sq. ft. to accommodate those residents wanting to build a larger garage than is presently permitted if they own a normal sized lot.

It is proposed a 30 foot by 26 foot garage will be permitted or a combination of dimensions not to exceed 780 sq. ft. provided the lot coverage of such accessory buildings does not exceed 9% of the total or a maximum of 780 sq. ft. All lots smaller will be allowed to have at least a 419 sq. ft. accessory building and a standard 66 x 132 will be allowed to have a 780 sq. ft. garage based on the 9% maximum. Larger lots will still be restricted to the 780 sq. ft. maximum and smaller lots will be working with the 9% factor.

A second public meeting was held on March 10th, 2008 to ensure the public and those possibly affected were advised and had the opportunity to comment on the revised larger proposed sq. footage for accessory buildings. No written comments were received and one person attended who was generally in favour of the proposed amendment.

Recommendation:

That By-Law Number 08-05 being a by-law to amend Zoning By-Law 85-23 be approved which will permit accessory buildings on residential lots to be a maximum of 780 square feet under certain circumstances as detailed in the by-law.

Respectfully submitted

Councillor G. Thibert
