- |                                      |    |   |
|--------------------------------------|----|---|
| <u>1 General</u>                     | .1 | All conditions of the contract apply to the work of this Section.   |
|                                      | .2 | Establish rates of wages and conditions of work in accordance with the Schedule of Labour Conditions. Wherever possible give preference to local labour and suppliers.  |
|                                      | .3 | Workmanship shall be of highest quality in accordance with best standard practice for this type of work, except where specified more precisely.   |
|                                      | .4 | All materials shall be exactly as specified on drawings or approved equal by the Owner.   |
|                                      | .5 | Wherever possible the Contractor shall give preference to the use of local labour, suppliers and sub trades. The General Contractor and all Subcontractors shall adhere to the hours of work, the working conditions, and rate of wages paid under prevailing local conditions and/or requirements, paying not less than minimum wages established by law under the minimum wage law.   |
| <u>2 Project Coordination</u>        | .1 | Coordinate progress of the Work, progress schedules, submittal, use of site, temporary utilities and construction facilities.   |
|                                      | .2 | Cooperate with and coordinate with other trades as required for the satisfactory and expeditious completion of the work. Take field dimensions relative of this work. Fabricate and erect work to suit field dimensions and field conditions. Provide all forms, templates, anchors, sleeves, inserts and accessories required to be fixed to or inserted in the work and set in place or instruct the related trades as to their location. Pay the cost of extra work caused by and make up time lost as the result of failure to provide the necessary co-operation, information or items to be fixed to or built in, in adequate time. |
| <u>3 Sketches and Specifications</u> | .1 | The sketches and these specifications shall be considered an integral part of the contract documents. Neither the sketches nor the specifications shall be used alone. Any specific item or work omitted from one and which is mentioned or reasonably implied in the other shall be considered as properly and sufficiently specified and must be provided by the General Contractor. Misinterpretation of any requirements of either plans or specifications shall not relieve the Contractor of his responsibility of properly completing his work to the approval of the Owner.   |
|                                      | .2 | These Specifications are not intended as a detailed description of installation methods but serve to indicate particular requirements in the completed work.  |
|                                      | .3 | Conform to Ontario Regulation 332/12 (latest revisions) made under the Building Code Act, hereafter referred to as the "Code". Where Ontario Building Code or the Contract Documents do not cover a particular requirement, which is covered by the National  |

Building Code, 1995 (latest revisions), conform to the requirements of N.B.C. including its related supplements. Where Drawings and Specifications exceed Code requirements provide such additional requirements.

- .4 Where words in the Contract Documents occur in the singular number, they shall be taken as plural where applicable in accordance with the quantities required to satisfy the requirements of the Contract.
- 4 Examination .1 Examine the work upon which your work depends. Report to Owner in writing defects in such work. The application of your work or any part of it shall be deemed acceptance of the work upon which your work or that part of it which has been applied depends.
- 5 Cutting and Patching .1 Approvals
- .1 Submit written request in advance of cutting or alteration which affects:
    - .1 Structural integrity of any element of Project.
    - .2 Efficiency, maintenance, or safety of any operational element.
    - .3 Visual qualities of sight-exposed elements.
    - .4 Work of Owner or separate contractor.
  - .2 Inspection
    - .1 Inspect existing conditions, including elements subject to damage or movement during cutting and patching.
    - .2 After uncovering, inspect conditions affecting work.
    - .3 Beginning of cutting or patching means acceptance of existing conditions.
  - .3 Execution
    - .1 Perform cutting, fitting, and patching to complete the Work.
    - .2 Remove and replace defective and non- conforming work.
    - .3 Provide openings in non-structural elements of Work for penetrations of electrical work.
    - .4 Perform work to avoid damage to other work.
    - .5 Cut rigid materials using power saw or core drill. Pneumatic or impact tools not allowed.
    - .6 Restore work with new products in accordance with Contract Documents.
- 6 Protection .1 **Contractor to provide security and protection barriers at all times during contract. Barriers are to allow continued use of Marina during construction work for Owner's inspection.**
- 7 Vandalism .1 The Contractor shall take all necessary precautions to protect the Owner's property from vandalism during construction. The Contractor shall make good any damage or loss of property directly or indirectly caused by vandalism due to his neglect.

- 
- |  |    |  |
|--|----|--|
| <u>8 Repair of<br/>Damage</u>                                    | .1 | Damaged work shall be made good by appropriate trades but at the expense of those causing damage. Damage shall be made good in a manner and to the extent acceptable to the Owner.   |
| <u>9 Quality Control</u>   | .1 | Inspection   |
|  | .1 | Owner shall have access to the Work. Give timely notice  |
|  | .2 | requesting inspection if Work is designated for special tests, inspections or approvals by Owner instructions, or law of Place of the Work.  |
|  | .3 | If Contractor covers or permits to be covered Work that has been designated for special tests, inspections or approvals before such is made, uncover such Work, have inspections or tests satisfactorily completed and make good such Work.                |
| <u>10 Construction<br/>Facilities and<br/>Temporary Controls</u> | .1 | Installation/Removal   |
|  | .1 | Provide construction facilities and temporary controls scaffolding and barricades in order to execute work expeditiously.  |
|  | .2 | Remove from site all such work after use.  |
|  | .2 | Site Storage/Loading   |

|  | .3 | All surplus materials (not provided by Owner) to be removed shall become the property of the Contractor and shall be removed from the premises unless otherwise noted. All costs associated with removal and disposal shall be paid for by the Contractor. |
|  | .6 | Burning  |
|  | .1 | Wood and other debris resulting from demolition operations shall <b>NOT</b> be burned on the site.   |

- 
- 11 Workmanship .1 Workmanship
- .1 Workmanship shall be best quality, executed by workers experienced and skilled in respective duties for which they are employed. Immediately notify Owner if required Work is such as to make it impractical to produce required results.
  - .2 Do not employ any unfit person or anyone unskilled in their required duties.
  - .3 Decisions as to quality or fitness of workmanship in cases of dispute rest solely with Owner, whose decision is final.
- 12 Project Closeout .1 Final Cleaning
- .1 When the Work is Substantially Performed, remove surplus products, tools construction machinery and equipment not required for performance of remaining Work.
  - .2 Remove waste materials and debris from site at regularly scheduled times or dispose of as directed by Consultant. Do not burn waste materials on site, unless approved by Owner.
  - .3 Leave work room clean before inspection process commences.
- .2 Inspection/Takeover Procedures
- .1 Prior to application for certificate of Substantial Performance, carefully inspect the Work and ensure it is complete, that major and minor construction deficiencies are complete, defects are corrected, and work is clean and in condition for intended purpose. Notify Owner in writing, of satisfactory completion of the Work and request an inspection.
  - .2 During Owner inspection, a list of deficiencies and defects will be tabulated. Correct same.
  - .3 When Owner considers deficiencies and defects have been corrected and it appears requirements of Contract have been performed, make application for certificate of Substantial Performance.
