

PUBLIC NOTICE

PLANNED TEMPORARY TRAFFIC DISRUPTION

HIGHWAY 17

Please be advised that construction activities on Dorion Road will require rock blasting operations commencing on July 29, 2024 until completion; a period of approximately 3 months.

Drivers should expect delays as each blast will cause traffic to be stopped on Highway 17 for approximately 15 minutes.

Consbec Inc., a subcontractor of Canor Construction Ltd. will be on site conducting drilling and rock blasting operations on Dorion Road between 1 and 5 times per day during daylight hours between 7:00 am and 7:00 pm.

Prior to every blast, the designated blast area will be cleared of all people and equipment by certified Blaster in-charge, and a series of sirens will be sounded alerting nearby residences, business owners, and stopped vehicles on Highway 17 that the blast is about to occur.

Following the blast the Blaster-in-charge will inspect the site and then will sound the all clear siren deeming the area safe for re-entry and allow traffic to proceed on Highway 17.

Please note the following information regarding the siren air horn sounds:

Once the area is cleared: 3 short siren air horns are sounded.

After a one- minute delay: 1 short siren air horn is sounded meaning that the blast will occur immediately.

To announce the all clear signal: 1 long siren horn sounded.

For the typical siren air horn sample sound please view the following youtube link.
